

AeroPlex 70

AeroPlex 70 is an acrylic rear projection screen material that was formulated to provide excellent white field uniformity

AeroPlex 70 is an acrylic rear projection screen material formulated to provide excellent white field uniformity. AeroPlex 70 performs well in environments where ambient light can be controlled. AeroPlex 70 is appropriate for extremely wide viewing angles and is ideally suited to extremely short throw projection light paths.

FEATURES

- Identical gain and color matching for multiple screen applications

Material Type	Acrylic Rigid Rear Screen
Gain	0.7
Half Gain	78 degrees
Minimum Throw Distance	0.72 x image width
Ambient Light Front Reflectance Value	35% per foot candle
Ambient Light Resistance	Controlled lighting is required
Lay Flat Quality	Fair
Flame Resistance	No
Size Limitations	9' x 25'
Screen Models	Rigid frames, MVP and multi-masking systems
