

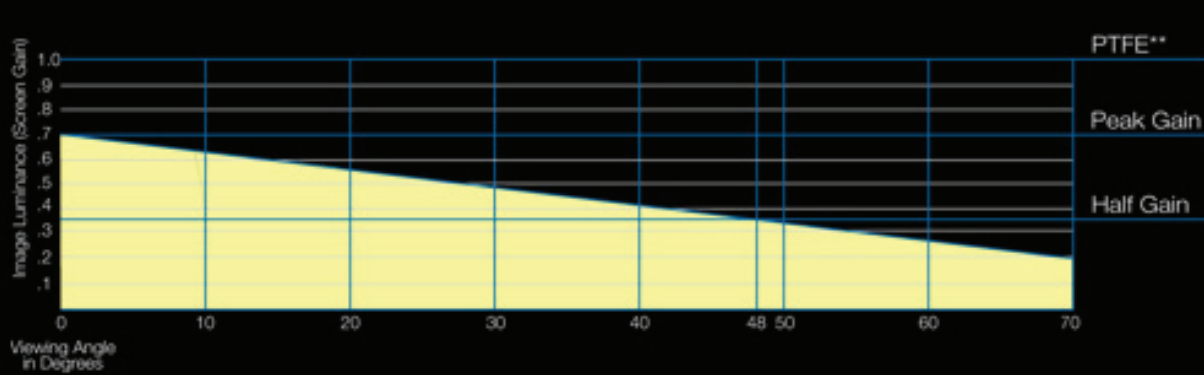

Graphite 70

Graphite SL70 is an acrylic rear projection screen is an excellent screen in custom applications with short projection light paths and can reduce ghosting tendencies, without increasing bloom. Graphite SL70 is designed to be used with short focal length projection light paths and functions well in environments with limited ambient light control.

FEATURES

- Identical gain and color matching for multiple screen applications

Material Type	Acrylic Rigid Rear Screen
Gain	0.7
Half Gain	48 degrees
Minimum Throw Distance	0.8 x image width
Ambient Light Front Reflectance Value	11% per foot candle
Ambient Light Resistance	Excellent performance in ambient light
Lay Flat Quality	Fair
Flame Resistance	No
Size Limitations	9' x 25'
Screen Models	Rigid frames and multi-masking systems
