

AeroView 100

AeroView 100 is a flexible rear projection screen material formulated to provide excellent white field uniformity. The AeroView 100 performs superbly in environments where ambient light can be controlled and is appropriate for wider viewing angles. AeroView 100 is perfect for use in applications that require edge-blending, with longer projection light paths.

FEATURES

- Perfect for use in edge-blending applications
- Identical gain and color matching for multiple screen applications
- Excellent white field uniformity

Material Type	Flexible Rear Screen
Gain	1.0
Half Gain	60+ degrees
Minimum Throw Distance	1.0 x image width
Ambient Light Front Reflectance Value	29% per foot candle
Ambient Light Resistance	Controlled lighting is recommended
Edge Blending Properties	Excellent
