

Deluxe Frame

The Deluxe Frame features a 3 1/4" wide frame with 45 degree mitered corners and a beveled edge

Deluxe Frame

The Deluxe frame features a 3 1/4" wide frame with 45 degree mitered corners and a beveled edge bringing the screen's image area closer to the frame while acting as a projection over-scan border. This frame can be inset into a wall or cabinet. Freestanding or hanging (flying) systems are also offered.

FEATURES

- Allows for easy installation of any rigid glass or acrylic screen material
- Sturdy aluminum construction
- 3.25" exposed frame surface
- Beveled edge (45 degree) bringing the image closer to the audience
- Designed for aperture mount type application
- Stewart's optional VeLux™ appliqué is available
