Standard Control		
Control	Power Options	Description
Dual Intelligent Motor Control (IMC)	120V / 220-240V	The IMC is a low voltage screen control that allows for switching conductors to be run in Class II (small wire, exposed, no conduit) and will interface with outboard video switching systems.

Wiring Diagram
120 VAC, 60HZ, 1.0A

The Dual Intelligent Motor Control consists of two state-of-the-art, bi-directional communication, AC motor controls designed to control projection screens and masking panels.
