Material Type	Flexible Front	Minimum Throw Distance	1.3 x Image Width
Maximum Size	8'6"(H) x 120'(W)	Edge Blending Properties	Moderate
Peak Gain	1.3	Passive 3D Use	No
Half Gain	80°	Lay Flat Quality	Excellent
Ambient Light Rejection Value	17%	Flame Resistance	Yes
Ambient Light Resistance	NA	Perforation Options	Yes

Recently reformulated **StudioTek 130 G4**, is a flexible, front projection screen material that now has less sparkle and offers amazing high dynamic range (HDR) of luminosity. This screen material also provides optimized white field uniformity – unmatched by competing gain screens. **StudioTek 130 G4** is thirty percent brighter than a matte white screen surface. Featuring a fourth generation, proprietary optical coating, this screen material allows for crisp, sharp focusing of content as well as superb color and outstanding, white field uniformity. Certified by THX, **StudioTek 130 G4** is the reference standard projection material within the AV industry.
