

# STEALTH VCS

**From the home to the office, the Stealth Video Conference Screen (VCS) delivers a superior entertainment and collaborative experience.**

- Achievable diagonal of 105" in native 21:9 aspect ratio - also available in 16:9 and 16:10 aspect ratio
- Flexible controls allow the projector screen to operate independent of the camera system
- ETL approved

- Independent trapdoor provides a concealed ceiling finish
- Precision arms carry your choice of video camera - compatible with most cameras
- Perfect for Zoom Rooms and Microsoft Teams Rooms

## Ideal for Microsoft Teams Rooms and Zoom Rooms

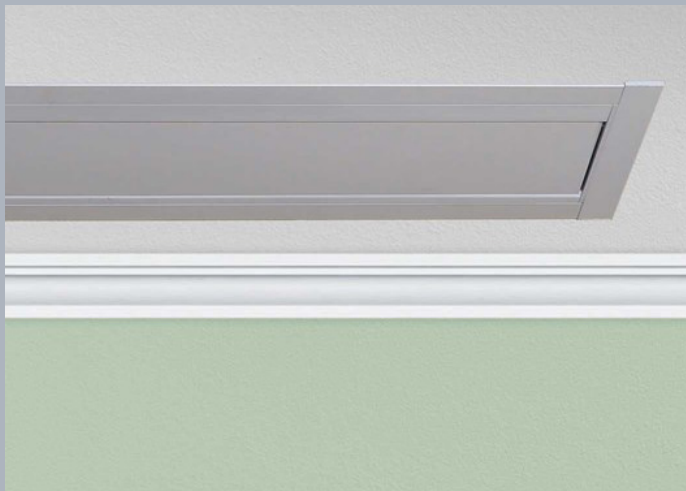

Order your Stealth VCS in 21:9 aspect ratio at 105" diagonal for the optimal unified collaboration experience for Microsoft Teams Rooms and Zoom Rooms experience.

## Video Camera Deployment

The conference system's arms seamlessly deploy your video camera to perfectly fit under the projector screen's batten bar without sacrificing image quality.

## Maximize Meeting Space

With a press of a button, Stealth VCS retracts into the ceiling keeping it clean and safe until the next meeting - freeing up valuable office space.
